

MMIGROUP
system innovator

1

MMI Group – offers solutions focused on enabling government agencies to provide critical information and use advanced tools to maintain and improve law enforcement and public safety. Our solution set combined with our worldwide practice leadership and strategic partners provides the underlying infrastructure and services to modernize processes and in particular, enable more effective communication, collaboration and information sharing.

2

MMI Group – providing innovative solutions and services to solve complex and client challenges in support of Ukrainian homeland security and critical infrastructure. Our reputation is critical to our business relationships and is a vital asset we are committed to protecting, preserving and enhancing.

We operate according to the following ethical standards:

3

MARKET – we conduct our business as responsible partners in accordance with applicable laws and regulations in each country where we operate

MANAGEMENT – we show respect for one another by treating everyone with dignity and fairness

INNOVATION – taking into account technology development speed, an innovation should be able to easily integrate with any systems
